

Why Choose

# Southeast Computer Solutions as your ERP business partner?

Here are a few reasons why...

SCS provides you a distinctive combination of business management consulting, software development, IT infrastructure, cloud hosting services and technical support — **SCS is a one-stop-shop for all enterprise infrastructure needs.**

You will have a broad selection of products with feature-rich modules empowering you to manage accounting, distribution and manufacturing to better manage and grow your business effectively. SCS will work with you to identify and select the appropriate solution that fits your business needs.

## A few of our products include:

**sage** X3

Intuitive and adaptable enterprise management

**sage** 500

Robust business management including accounting and finance modules

**sage** 100

End-to-end business management for manufacturing, distribution, and retail

 **Acumatica**  
The Cloud ERP

Cloud ERP software for small to mid-size companies

## Your Gateway to LATAM

Southeast Computer Solutions is based in Miami, the gateway for LATAM, with offices in Mexico, Buenos Aires, and Granada.

SCS operates in multiple languages and can provide you the tools to fulfill the fiscal legislation requirements of Mexico and Latin American regions.

We're perfectly poised to service your headquarters in the US with subsidiaries in LATAM as well as companies headquarter in LATAM . Do you struggle to meet local requirements such as tax declarations, compliance reporting, and electronic invoicing?

**SCS can help.**

Southeast Computer Solutions is the best choice for LATAM companies

as we:

• • • • • Understand the complexities of localized fiscal requirements

• • • Have written Mexican & Peruvian legislation for Sage X3

• • • • • Provide LATAM fiscal requirements enhancement for Sage X3

• • • Are actively adding legislation enhancements for more LATAM countries

• • • • • With over 300 customers across the USA, Caribbean and Latin America, we are one of the largest and most reputable business partners for all your business technology needs.

# Offering IT Cloud Hosting Services

Cloud-based solutions offer the scalability and flexibility you need to support a growing business.

Southeast Computer Solutions provides you:

Versatile Cloud-Hosted ERP Partner Solutions

Powerful SCS Cloud Computing Services

Outstanding Customer Service

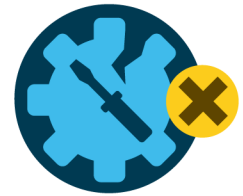

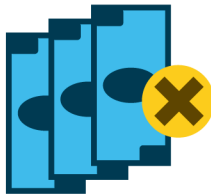

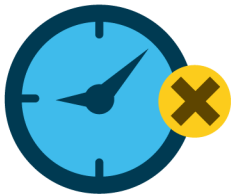

Worry-free Security and Reliability

# Your Software Implementation Specialist

**Dr. Phixset**

Southeast Computer Solutions is your implementation doctor. **We save our patients from the pain of a failed software installation or unhealthy systems and solutions.**

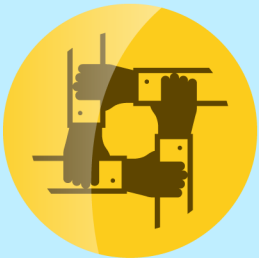

33% of implementations fail because they're **not on time, on budget, or improperly implemented.**

### If You Can Think It, We Can Right (Write) It

Your system should match your business, not the opposite, and Southeast Computer Solutions creates deceptively sophisticated solutions for your complex requirements. With the knowledge that out-of-the-box software often meets only 85-90 percent of your needs, our staff members are qualified programmers with the business knowledge to find creative solutions to fill the gaps.

### Company Culture is a Driving Force

Your experience with us will be a professional and pleasant one. The company culture at Southeast Computer Solutions is a balanced mixture of working hard while maintaining a friendly atmosphere.

### We Are Accessible

You need help, and it never seems to be during typical “business hours.” We recognize that the current business world holds no traditional business hours, so we’re available 24/7 for all your needs – days, nights, weekends, anytime you need us. You can get continuous support via the internet, email, and telephone, or on-site based on your location.

**We have been in business since 1985**  
with hundreds of successful software implementations behind us.

**Schedule a “no obligations”  
appointment with us today.**

**888-773-2161**
